Preston and South Ribble Flood Risk Management Scheme

Community Drop-in Event

Date	Tuesday 5 November
Time	3.30pm -7.30pm
Venue	Tickled Trout, Preston New Rd, Samlesbury, Preston PR5 0UJ

The current flood defences in Preston and South Ribble were built several decades ago and therefore a new flood risk management scheme is required.

As part of our continued community engagement programme we would like to invite you to this latest 'drop-in' session. Please come along to find out more about where we are with the scheme's progress and ask the project team questions.

You can drop into the session at any time between 3.30 -7.30pm

Did you know that you can also book your place online?

Simply hold your phone camera to the QR code opposite. This should automatically scan the code, much like a barcode and direct you to the registration site.

Visit our website for further details

www.TheFloodHub.co.uk/PSR

If you do not have direct access to the internet you access the website via your local library. We hope you can come along but if you can't make this drop-in or have any questions please contact: cmbinc-pso@environment-agency.gov.uk

At the event we will aim to provide a translation and other accessibility services where required. If you think you would require these services it would help us if you could let us know in advance so that we can make appropriate arrangements.
