

This pre-populated plan can be used as it is, or as a guide to help you create your own flood plan using one of our blank templates.

Trigger 1

Flood Alert

Met Office Yellow Weather Warning

Community telemetry, e.g river level sensor

Flooding is possible. Stay vigilant and make early preparations for a potential flood.

What to do at this stage

- Monitor the situation through forecasts, local radio stations and monitoring stations.
- Send a communication out that a flood alert/Met Office Yellow Warning has been issued.

Community flood group actions

- Monitor the situation through forecasts, local radio stations and monitoring stations.
- Check that any community level defences are ready to go and available to deploy if required.
- Contact all flood wardens and the flood group to be on standby.

Trigger 2

Flood Warning

Met Office Amber Weather Warning

Community telemetry, e.g river level sensor

Flooding is expected. Immediate action is required to protect yourself and your property.

What to do at this stage

- Continue to monitor the situation.
- Warn and inform the community that flooding is expected and to deploy any PFR.
- Activate community flood plan.

Community flood group actions

- Contact the community to notify them that a warning has been issued.
- Deploy flood wardens and community flood defences.
- Wardens should help the vulnerable to deploy their PFR and prepare for a flood.

Trigger 3

Severe Flood Warning

Met Office Red Weather Warning

Community telemetry, e.g river level sensor

Severe flooding is expected and is likely to cause significant risk to life and destruction of property.

What to do at this stage

- Send out a communication that evacuations are taking place and provide the address of the evacuation centre.
- Prepare to evacuate and cooperate with the emergency services.

Community flood group actions

- Ensure residents are safe.
- Help vulnerable residents to evacuate.
- Complete evacuation checklist and give to emergency services.
