

An update on visiting West Kirby

This week, we have published some information for potential visitors to West Kirby. We have advised that West Kirby is open to visitors but strongly recommend they use public transport.

This information is being shared to potential visitors widely on our social media channels, and [we have issued this press release](#) which highlights that:

- There will be very limited access to public parking
- South Parade will be closed, at times, to traffic
- Work is continuing on the flood barrier scheme
- Any issues or enquiries about the project can be raised in-person at the Community Experience Centre on Salisbury Avenue - near to the junction with South Parade - on weekdays between 10am and 4pm

As a reminder, more information on the scheme is available at www.wirral.gov.uk/westkirbywall
