

Rochdale and Littleborough Flood Risk Management Scheme

28 July 2022

Dear Resident

RECOVERY OF PILING RIG

Recovery of the collapsed piling rig is due to take place next week from Monday 1st August at 6am.

Three cranes will be arriving on site via Railway Street using the same route as previously to remove the piling rig.

Once the rig is removed the cranes will then leave site which we anticipate to be at the end of the week.

We sincerely apologise for any inconvenience caused while we undertake these recovery works and will keep disruption to a minimum wherever possible.

The customer centre will reopen on Monday 1st August at 10am and resume normal hours. If you have any questions or concerns please drop in to see us.
