

# Preston and South Ribble Flood Risk Management Scheme

The £54.7m project comprises of five areas:

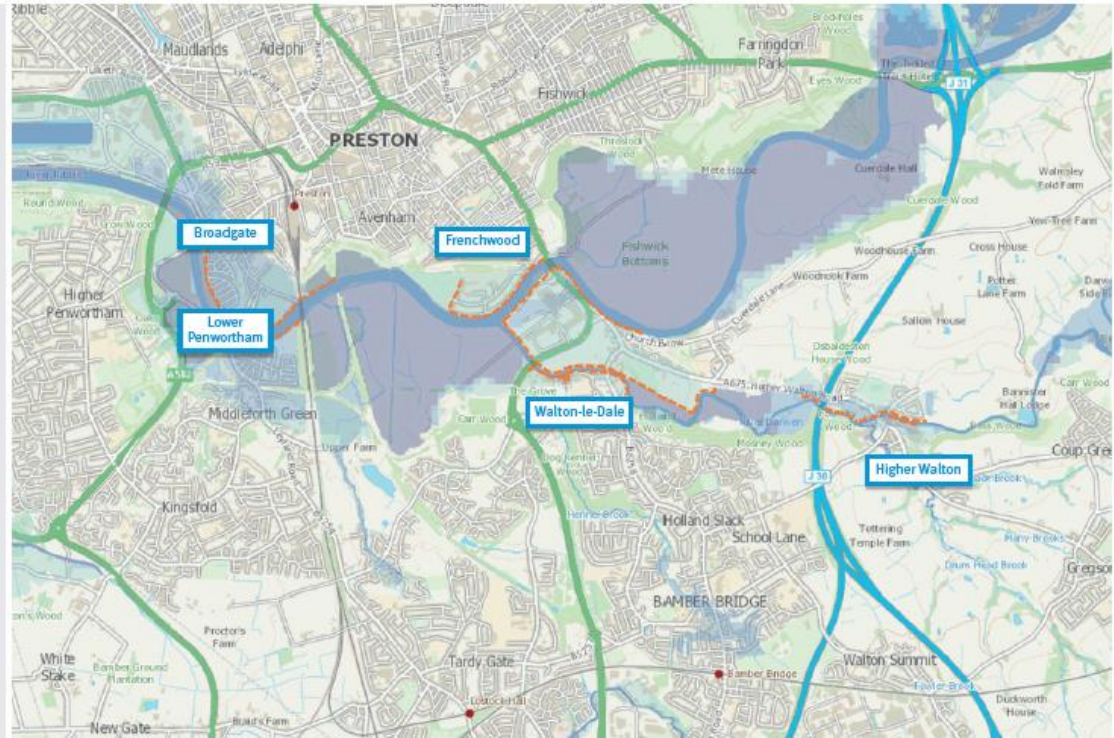

**AREA 1** Broadgate & Riverside

**AREA 2** Lower Penwortham

**AREA 3** Frenchwood & Walton-Le-Dale  
(along the Ribble)

**AREA 4** Walton-Le-Dale  
(along the Darwen)

**AREA 5** Higher Walton

Work in Areas 1 and 2 is currently underway. Detailed designs for Areas 3, 4 and 5 to be finalised this year. Construction work is estimated for completion by the end of 2024.

Under the scheme, existing flood defences will be raised and new walls will be built. This will improve protection for around 5000 business and residential properties.
