

Rochdale and Littleborough Flood Risk Management Scheme

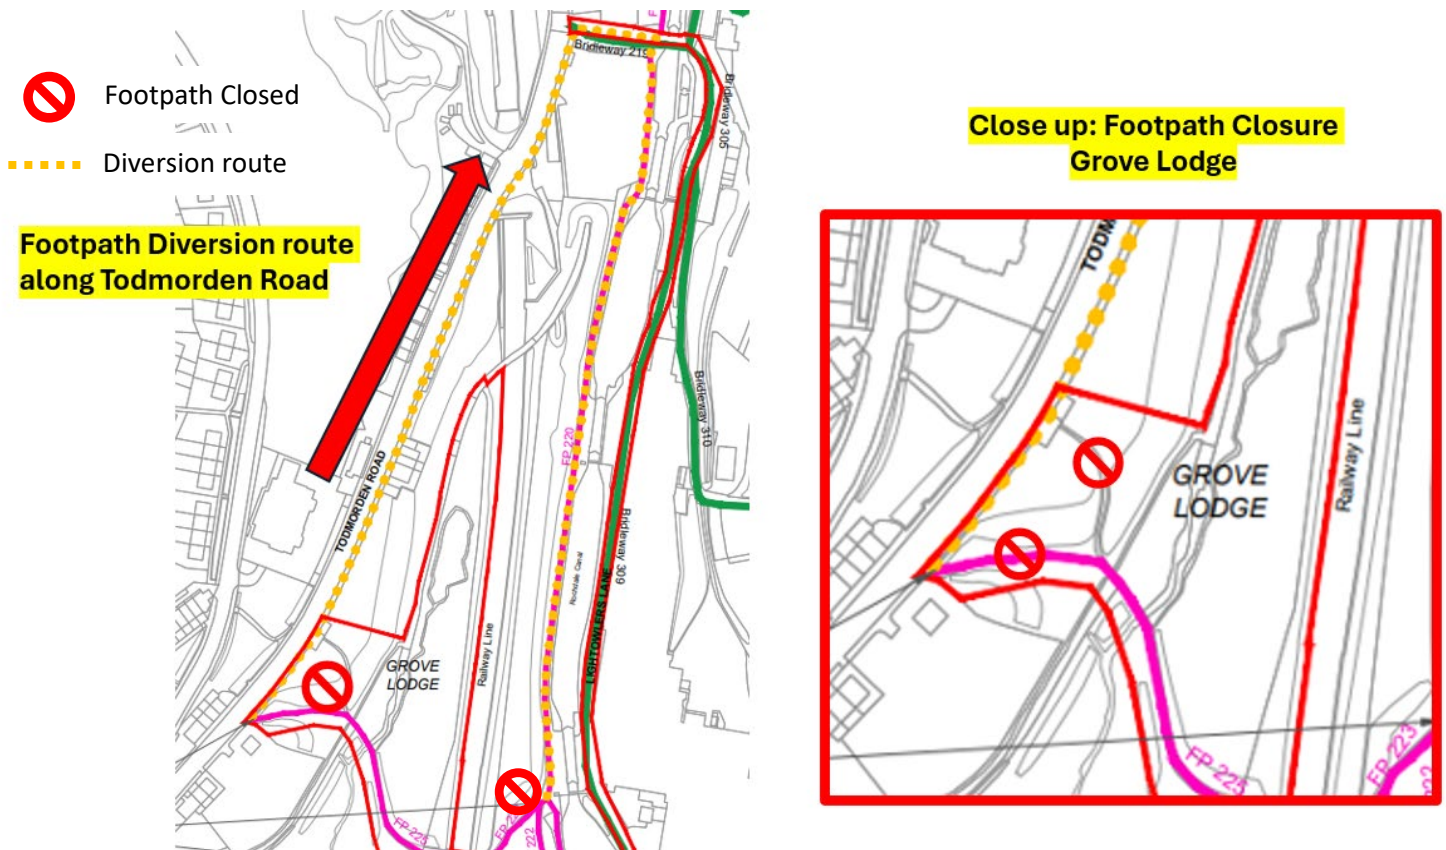

Reference – Littleborough 1B – Grove Lodge Ground Investigations

Dear Resident,

We previously wrote to you in April regarding our works to widen the entrance at Grove Lodge for our construction. We are now ready for the next phase of works to commence the enabling works prior to our ground investigation works next month. These enabling works will commence on Monday 15th July.

Throughout these works and the ground investigation works we will require a further closure to the existing footpath, this closure will be on for around 8 weeks whilst we complete these works.

Please see the map below which shows this closure and an alternate diversion route on Todmorden Road.

How may this affect me?

- The footpath as shown above will be closed for around 8 weeks whilst we complete our enabling works and the following ground investigation works. These works will commence on 15th July.
- You may see an increase in construction vehicles as we bring in equipment and material onto site. However, during our construction works we will do what we can to keep any noise to a minimum.

Prior to us starting our ground investigation works on site we will write to you again with what to expect from these works. We anticipate this work starting mid-August 2024.

How to stay updated & contact us

You can find more information on our website: <https://thefloodhub.co.uk/rochdale-and-littleborough/>

If you have any further queries, please email us at: rochdaleandlittleborough.fas@environment-agency.gov.uk or alternatively you can call us on: 020 302 50495

As work on the scheme progresses, we will continue to provide you with updates.

Kind Regards,

Customer Services
