

# Kendal Flood Risk Management Scheme

Reducing flood risk in your community

Waterside Update Week Commencing 16th February 2026

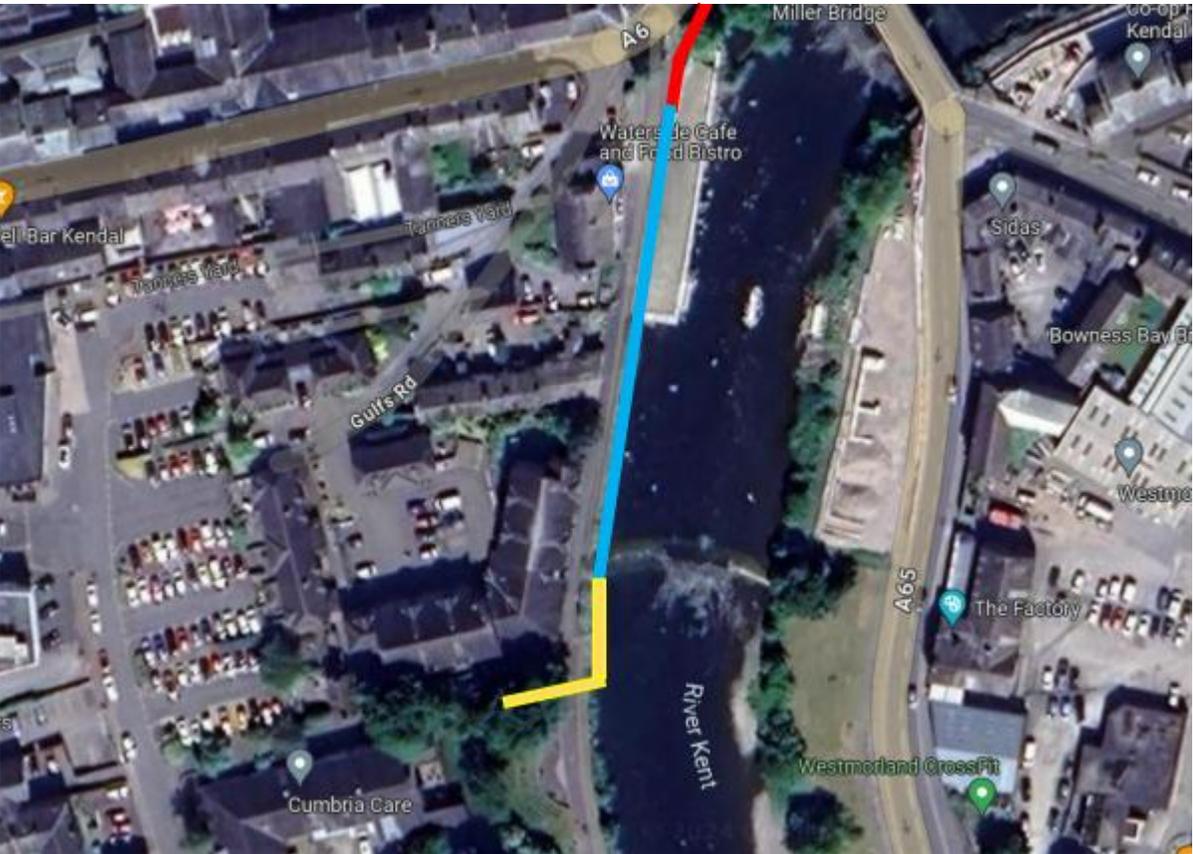

## Great News!

Following the opening of the Waterside footpath the cladding continues along the river side of the wall.

The flood gate near Edgecombe Court will be completed once the gate controls are fitted along with the railings that are being fabricated to match existing railing along the riverside.

We hope you're enjoying those beautiful river views through the new glass panels. Whether you're out for a stroll or grabbing a coffee at Waterside Café, brighter days are coming... we're just waiting for the sun to join us! ☀️
